

EYsailing – Green Photo Cruises

This year, from 5th until the 16th of September 2017, we will explore the Ionian Sea! Starting from Lefkas and the Oracle of Aheron with its stunning beauty and history, we will hike and explore the isolated Paxi and Antipaxi of the north Ionian, before sailing south to Meganisi with the endemic flora for hiking, we will wonder in the old windmills and traditional architecture of Kioni, explore the lakes and nature of east Kefalonia, meet in first hand the caretta-caretta turtle in the marine park of Zante before exploring the isolated Strofadia islets with the unique cedar-forest, visit the picturesque St Nicholas in the north of Zante before hiking between the olive trees of Kastos!

All this natural beauty will unfold and be revealed through a series of epic picture, which you will see aboard our sailing yacht “Lito”! This trip will provide a great chance to discover the “photographer” inside you, through the guidance of awards-winning photographer Yannis Tzortzis, member of the Royal Photographic Society of Great Britain, who will be giving courses on Environmental Photography onboard!

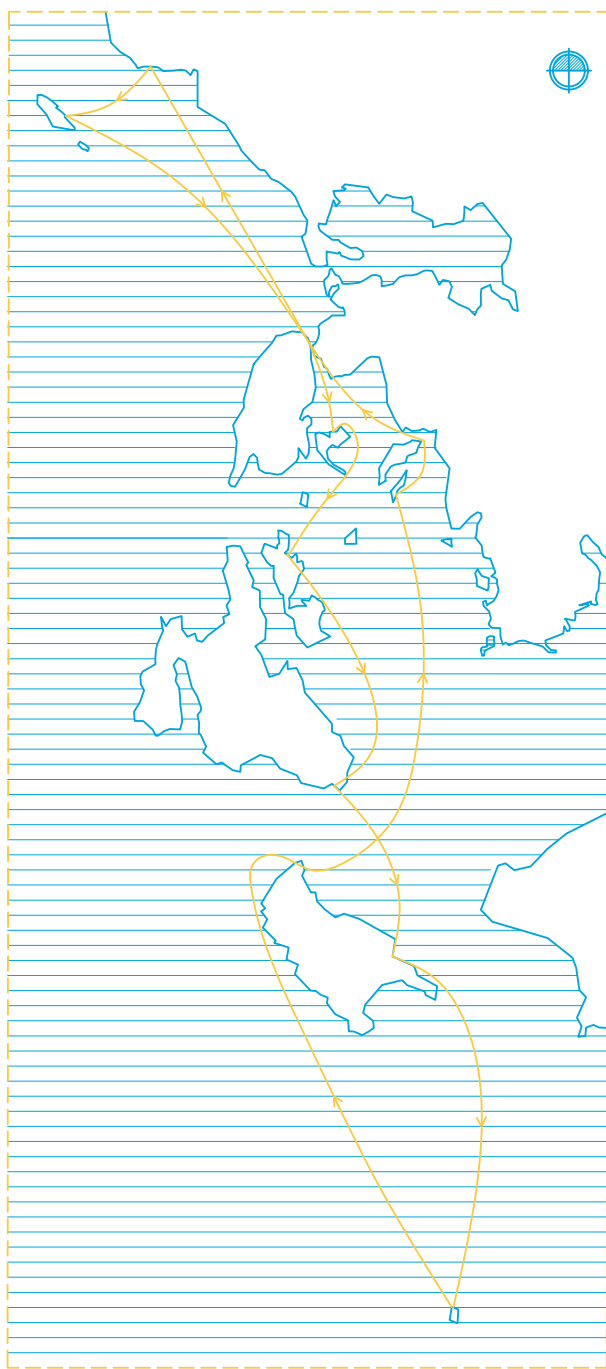

With your participation in this trip, you will obtain a “Certificate of Membership of Green Project”, will become part of the “Green Project Documentary”, while your photographs will be presented at the exhibition “Green Photo Cruise 2017: The Ionian Sea”!

Green Project actions are being held under the auspices of the Hellenic National Commission for UNESCO.
